

This report summarizes the responses that parents, students, teachers, paraprofessionals and parent coordinators in community schools provided on the 2014 NYC School Survey.

Questions are sorted into four categories: Instructional Core, Systems for Improvement, School Culture, and questions that are reported for informational purposes only.<sup>1</sup> Within each category, parent survey responses are listed first followed by teacher and student responses.

Responses to each question are reported as percentages. The most common response to each question is displayed in bold print. The positive responses are reported as a percentage to the right of each question.
